

ARE YOU FEEDING YOUR PET THE RIGHT TREATS?

Treats are a great way to bond, reward and provide functional benefits to your pet! Ensuring treats are calculated into your pet's daily food amount is essential for healthy weight management. Even small treats that you give to your pets at the table can be the equivalent of a sizable meal. Below are some common treats that could play a role in overfeeding your pet and potentially lead to weight gain.

DID YOU KNOW?

Treats should make up no more than 10% of the recommended total daily calorie intake.
